YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

This Product Highlights Sheet only highlights the key features and risks of this Fund. Investors are advised to request, read and understand the Prospectus of the Fund before deciding to invest.

PRODUCT HIGHLIGHTS SHEET

AIIMAN INCOME EXTRA FUND

BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?

The Fund is an open-ended Shariah-compliant wholesale fixed income fund which aims to provide investors with a steady income stream by investing in Sukuk, Islamic money market instruments and/or Islamic deposits.

PRODUCT SUITABILITY

2. Who is this product suitable for?

The Fund is designed for Sophisticated Investors who have a short term to medium term investment horizon and have a low risk tolerance.

KEY PRODUCT FEATURES

3. What am I investing in?

Launch Date	7 October 2019							
Tenure	This Fund is an open-ended fund where it does not have a fixed maturity date and the Fund and may only be terminated in accordance with the terms of the Information Memorandum and the provisions of the Deed.							
Base Currency	MYR							
Fund Type / Category	Income / Fixed Income (Shariah-compliant Wholesale)							
Investment Objective	The Fund aims to provide investors with a steady income stream by investing in Sukuk, Islamic money market instruments and/or Islamic deposits.							
Asset Allocation	<table><tr><th>Asset Class</th><th>% of the Fund's NAV</th></tr><tr><td>Sukuk, Islamic money market instruments and/or Islamic deposits</td><td>Minimum of 70%</td></tr><tr><td>Cash</td><td>Maximum of 30%</td></tr></table>		Asset Class	% of the Fund's NAV	Sukuk, Islamic money market instruments and/or Islamic deposits	Minimum of 70%	Cash	Maximum of 30%
Asset Class	% of the Fund's NAV							
Sukuk, Islamic money market instruments and/or Islamic deposits	Minimum of 70%							
Cash	Maximum of 30%							
Investment Strategy	<p>The Manager will endeavour to achieve the Fund's objective by investing a minimum of 70% of the Fund's NAV in Sukuk, Islamic money market instruments and/or Islamic deposits and a maximum of 30% of the Fund's NAV in cash.</p> <p>The portfolio will comprise of Sukuk and issuances guaranteed by the Government of Malaysia. These instruments may include but are not limited to Government Investment Issues, Malaysian Islamic Treasury Bills, Bank Negara Monetary Notes-i and government guaranteed ("GG") sukuk.</p> <p>The Manager will employ an active investment management strategy to provide regular income to investors and to maintain a sufficient level of liquidity to meet cash flows requirements. The Manager will add value primarily by employing active asset allocation, duration and yield curve strategy, taking into consideration the fundamentals of the Malaysian economic and interest outlook, valuation of the underlying Sukuk and technical analysis of the domestic government and GG sukuk market.</p> <p>The Fund will invest in Sukuk with remaining time to maturity of not more than five and a half (5.5) years at the time of investment. In terms of duration, the Fund shall have a maximum weighted portfolio duration of three (3) years.</p>							

	<p>The Fund will be managed primarily to provide regular income, while at the same time preserving capital¹ and maintaining a sufficient level of liquidity in order to meet cash flow requirements. We believe that an important way to accomplish this is by analysing various factors such as the current and anticipated changes in interest rates, economic statistics, yield curve changes and other general market conditions that could affect Islamic money market instruments and Islamic deposits.</p> <p>The Manager may hold more than 30% of the Fund's NAV in cash under circumstances such as:</p> <ul style="list-style-type: none"> (i) large injection of cash by investors into the Fund; (ii) sale of investment holdings of the Fund; and (iii) any other circumstances that are in line with the Fund's objective. <p>In the event the Fund's cash level exceeds 30% due to the above circumstances, the Manager will, on best effort basis, ensure that the cash level is to be reduced to 30% within five (5) consecutive Business Days.</p> <p>There will be no foreign investments for this Fund. The Fund will also have the flexibility to invest in Islamic collective investment schemes that are relevant and consistent with the Fund's investment objective.</p> <p>Temporary Defensive Measure</p> <p>We hold the option to take temporary defensive positions that may be inconsistent with the Fund's principal strategy asset allocation to protect the fund against adverse market conditions that may impact the Fund's capital.</p> <p>¹The Fund is neither a capital guaranteed nor a capital protected fund.</p>
Benchmark	Maybank 1-month General Investment Account-i (GIA-i) rate
Distribution Policy	<p>Subject to the availability of income, the Fund will make distribute to the Unit Holders on quarterly basis. However, the amount of income available for distribution may fluctuate from year to year.</p> <p>At our discretion, the Fund may distribute (1) realised income, (2) realised capital gains, (3) unrealised income, (4) unrealised capital gains, (5) capital or (6) a combination of any of the above.</p>
Minimum Initial Investment*	MYR 100,000
Minimum Additional Investment*	MYR 10,000
Minimum Units Held*	100,000 Units

* At our discretion, we may reduce the transaction value and Units, including for transactions made via digital channels, subject to terms and conditions disclosed in the respective channels.

Note: Please refer to the Fund's Information Memorandum for further details of the Fund.

4. Who am I investing with?

Relevant parties' information:

The Manager	AIIMAN Asset Management Sdn Bhd
The Trustee	TMF Trustees Malaysia Berhad
Shariah Adviser	Amanie Advisors Sdn. Bhd.

5. What are the possible outcomes of my investment?

The Fund is a Shariah-compliant wholesale fixed income fund that focuses on building a Malaysia-focused Islamic fixed income portfolio which consists of Sukuk, Islamic money market instruments, Islamic deposits and/or cash. The performance of the Fund is dependent on the Islamic fixed income securities that the Fund invests in.

Unlike fixed deposits which generally provide a guarantee on capital invested and carry a specific rate of return, the Fund's investments in Sukuk does not provide a guarantee on capital contributed nor does it guarantee a fixed rate of return.

The Fund endeavors to distribute income, if any, on a quarterly basis. However, the amount of income available for distribution may fluctuate.

KEY RISKS

6. What are the key risks associated with this product?

General risks

- **Market risk** – Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
- **Fund Management risk** – This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
- **Liquidity risk** – Liquidity risk refers to two scenarios. The first scenario is where an investment cannot be sold due to the unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders' investments in the Fund. Upon such event and in the best interest of the Unit Holders, the Manager may suspend the repurchase of Units requests. Please refer to "Suspension of Dealing in Units" section of this Information Memorandum for more details.
- **Performance Risk** - The performance of the Fund depends on the financial instruments that the Fund purchases. If the instruments do not perform within expectation or if there is a default, then, the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. This is where the experience and expertise of the fund managers are important and the risk on the lack of experience and expertise of the fund managers has been highlighted above. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns or distribution of income.
- **Inflation risk** – This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
- **Operational risk** – This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.
- **Related party transaction risk** – The Fund may invest in AIIMAN's Islamic collective investment schemes and may also have dealings with parties related to AIIMAN. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.
- **Suspension of repurchase request risk** – Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined, or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.

Specific risks

- **Sukuk investment risk** – The buying and selling of Sukuk carry a number of risks, the most important being the volatility of the debt capital markets on which those Sukuk are traded and the general credit risk associated with the issuers of Sukuk. Price changes in Sukuk are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. As a result, the Fund's portfolio performance may be affected by the volatility of debt capital markets on which those securities are traded, the general credit risk associated with the issuers and the price changes due to interest rate developments. In managing Sukuk investment risk, the Manager will actively monitor market developments and may make necessary adjustments to the portfolio should needs arise. The price changes also depend on the term or residual time to maturity of the Sukuk. In general, Sukuk with shorter terms have less price risks than Sukuk with longer terms.
- **Credit and default risk** – Credit risk relates to the creditworthiness of the issuers of the Sukuk and Islamic money markets instruments and the Financial Institutions where the Islamic deposits are placed ("hereinafter referred to as "investments") and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer and/or Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or a Financial Institution of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

- **Profit rate risk** – This risk refers to the impact of profit rate changes on the valuation of the Sukuk and money market instruments (hereinafter referred to as “investment”). Generally, movement in profit rates affects the prices of investment inversely, for example, when profit rates rise, prices of investment will fall. The fluctuations of the prices of the investment will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the investment until their maturity. We also manage profit rate risk by considering each investment’s sensitivity to profit rate changes. When profit rates are expected to increase, the Fund would then likely seek to switch to investment that are less sensitive to profit rate changes. For investments in Islamic deposits, the fluctuations in the profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at lower profit rate.
- **Reinvestment risk** – This risk arises when coupons from the Sukuk are not reinvested at the prevailing profit rate when the investment was initially made. The risk is more likely to take place during a declining profit rate and may impact the yield-to-maturity of the investments which is calculated based on the assumption that all coupon payments made by the investments are reinvested at the same profit rate when the investments were first made. The Manager will mitigate this risk by closely monitoring the profit rate movements and take measures which will not be limited to reduce the Fund’s exposure into such investments.
- **Shariah non-compliance risk** – As the Fund can only invest in Shariah-compliant securities, there is always a risk that losses may be suffered by the Fund when the Manager is forced to dispose investments to rectify any Shariah non-compliance. This risk is mitigated through the appointment of Shariah Adviser, who will be responsible to ensure that the Fund is managed and administered in accordance with Shariah requirements.
- **Distribution out of capital risk** – The Fund may distribute income out of capital. Such capital distributions represent a return or withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit of the Fund and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained.

Note: Please refer to “Understanding the Risks of the Fund” in Information Memorandum for further details on each risk.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Information Memorandum to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

FEES AND CHARGES

7. What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before contributing to the Fund.

What will I be charged by the Manager?

Sales Charge	Nil.
Repurchase Charge	
Transfer Fee	
Switching Fee	The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.

What are the key ongoing fees charged to the Fund?

Management fee	Up to 0.50% per annum of the NAV of the Fund.
Trustee fee	Up to 0.035% per annum of the NAV of the Fund (excluding foreign custodian fees and charges).

Note: Please refer to the Information Memorandum for further explanation and illustration of the Fund’s fees, charges and expenses.

ALL FEES AND CHARGES PAYABLE BY YOU ARE SUBJECT TO ALL APPLICABLE TAXES AND / OR DUTIES AS MAY BE IMPOSED BY THE GOVERNMENT AND / OR THE RELEVANT AUTHORITIES FROM TIME TO TIME.

VALUATIONS AND EXITING FROM INVESTMENT

8. How often are valuations available?

The Fund will be valued on every Business Day and you may obtain the NAV and NAV per Unit of the Fund from our website at www.aiiman.com, our customer service via our toll free number 1-300-88-8830 or email to general@aiiman.com

9. How can I exit from this investment and what are the risks and costs involved?

You may request to redeem your investments in the Fund at any point in time by completing the repurchase application form and returning it to us on any Business Day between 8.45 a.m. and 10.30 a.m. Payments will be made to you within 10 Business Days from the day the repurchase request is received by us and provided that all documentations are completed and verifiable.
