Frequently Asked Questions (“FAQ”) on e-Invoicing

4. Why do I need to request for my e-invoices instead of it being automatically available for me to download?

The process of e-Invoice preparation requires your information to be validated by the IRBM. The e-Invoice document can only be prepared upon successful validation. Any inaccurate or incomplete information which leads to a failed validation by IRBM would result in an unsuccessful generation of your e-Invoice.

5. Is it necessary to request e-Invoice from AIIMAN?

It is not necessary for you to request for an e-Invoice at the current moment, unless there is any changes made to the tax legislation.

This is because you will continue to receive existing documents which you may use income tax purposes, such as income tax deduction and/or personal tax relief.

6. Will e-Invoice be issued for all my transactions?

Yes, an e-Invoice shall be prepared for all your transactions such as fee and charges, investments, redemption, income distribution, etc.
