- Age 18-54
- Have savings above the prescribed Basic Savings amount in Akaun Persaraan

What is Basic Savings?

Basic Savings refers to the minimum amount of savings that members need in order to support their basic needs when they reach their retirement age.

It is a fixed amount prescribed by EPF, whereby the older a person, the higher the basic savings requirement.

How Does EPF-MIS Work?

<p>30% from the savings in excess of Basic Savings amount in Akaun Persaraan</p>	<p>Calculation: Total savings in EPF Akaun Persaraan – Basic Savings amount x 30%</p>	<p>Example: If Irina is a 35 year old EPF member and has RM80,000 in her EPF Akaun Persaraan, her Basic Savings requirement is RM47,000. The permitted withdrawal for EPF-MIS will be (RM80,000 – RM47,000) x 30% = RM9,900</p>

The minimum amount of savings that can be withdrawn is RM1,000 and is subject to the availability of excess savings based on the Basic Savings Requirement in Account 1.
