RISK FACTORS

This section provides you with information on the risks associated with investing in the Fund.

GENERAL RISKS

➤ Fund Management Risk

This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, our investment decisions as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

➤ Inflation Risk

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

➤ Financing Risk

This risk occurs when you take a financing to finance your investment. The inherent risk of investing with financed money includes you being unable to service the financing payments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.

➤ Operational Risk

This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error, system failure or fraud where our employees collude with one another. This risk may cause monetary loss and/or inconvenience to you. We will regularly review our internal policies and system capability to mitigate this risk. Additionally, we maintain a strict segregation of duties to mitigate instances of fraudulent practices amongst our employees.

➤ Liquidity risk

Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders' investments in the Fund.

➤ Suspension of repurchase request risk

Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined. Such exceptional circumstances may occur when, amongst others, the Islamic CIS that make up material portion of the NAV of the Fund suspend the dealings* and the inability to repatriate the proceeds of the redemptions of the shares or units of the Islamic CIS arising from the regulatory restrictions and/or foreign exchange controls imposed by the authorities in respective jurisdictions. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.

* *The Manager may consider suspending the Fund when multiple Islamic CIS (which make up material portion of the Fund's NAV) that the Fund invests in suspend the dealings under circumstances, amongst others, as follows:*

- (i) Should redemption applications by investors of the Islamic CIS exceeds 10% of the net asset value of the Islamic CIS on any dealing day, the management company of the Islamic CIS may in its absolute discretion defer such redemption applications; and*
- (ii) When substantial portion of the Islamic CIS's investments is suspended or restricted for trading that subsequently affects the valuation of the Islamic CIS.*

SPECIFIC RISKS

Specific risks relating to the Fund are as below:

➤ **Islamic CIS Risk**

Any adverse effect on the Islamic CIS which the Fund is investing in will impact the NAV of the Fund. For example, the respective Islamic CIS may underperform its benchmarks due to poor market conditions and as a result, the NAV of the Fund will be adversely affected as the performance of the Fund is dependent on the performance of the respective Islamic CIS. In addition, any mismanagement of the Islamic CIS or poor decisions taken on the Islamic CIS may adversely affect the NAV of the Islamic CIS and hence the Fund.

➤ **Credit And Default Risk**

Credit risk relates to the creditworthiness of the issuers of the Islamic money market instruments and the Financial Institutions where the Islamic deposits are placed (hereinafter referred to as "investment") and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer and/or Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or Financial Institution either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

➤ **Profit Rate Risk**

Islamic money market instruments are subject to profit rate fluctuations. Generally, movement in profit rates affects the prices of Islamic money market instruments inversely. For example, when profit rates rise, prices of Islamic money market instruments will fall. The fluctuations of the prices of Islamic money market instruments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding Islamic money market instruments until their maturity. We also manage profit rate risk by considering each Islamic money market instruments' sensitivity to profit rate changes. When profit rates are expected to increase, the Fund would then likely seek to switch to Islamic money market instruments that are less sensitive to profit rate changes. For investments into Islamic deposits, the fluctuations in the profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at lower profit rate.

➤ **Currency Risk**

As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

➤ **Related Party Transaction Risk**

The Fund may invest in AIIMAN's Islamic CIS and may also have dealings with parties related to AIIMAN. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.

➤ **Country Risk**

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund to fall.

Specific risks relating to the Islamic CIS in which the Fund invests in are as below:

➤ **Shariah-compliant stock specific risk**

Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stocks will adversely affect the performance of the Islamic CIS.

➤ **Credit And Default Risk**

Credit risk relates to the creditworthiness of the issuers of the sukuk or Islamic money market instruments and the Financial Institutions where the Islamic deposits are placed (hereinafter referred to as “investment”) and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer and/or Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or the Financial Institution either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment.

➤ **Profit Rate Risk**

This risk refers to the impact of profit rate changes on the valuation of sukuk or Islamic money market instruments (hereinafter referred to as “investment”). When profit rates rise, the investment prices generally decline and this may lower the market value of the investment. The reverse may apply when profit rates fall. For investments in Islamic deposits, the fluctuations in the profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at the lower profit rate.

It is important to note that any adverse effect on the Shariah-compliant stocks, sukuk and Islamic money market instruments could adversely affect the performance of the Islamic CIS which the Fund is investing. This in turn may cause the NAV of the Fund to fall.

RISK MANAGEMENT

As AIIMAN is a wholly owned subsidiary of AHAM, the risk management function of AIIMAN is being outsourced to AHAM. In day-to-day running of the business, AHAM employs a proactive risk management approach to manage portfolio risks, operational risks and liquidity risks. The board of directors of AHAM has established a board compliance and risk management committee to oversee AIIMAN’s risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance and risk management committee comprises of at least three (3) board members of AHAM and is chaired by an independent director of AHAM. At the operational level, AHAM has established a compliance and risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders’ interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance and risk oversight committee reports to the board compliance and risk management committee on a quarterly basis.

As the Fund will be investing a minimum of 85% of its NAV into Islamic CIS, the risk management of the Fund will largely be held at the level of the respective Islamic CIS that the Fund is invested into. Nevertheless, we will conduct a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors and any risks associated with it when making geographical selections. We also have in place a credit risk management process to reduce counterparty risk of Islamic derivatives whereby such risk arises when the counterparty is not able to meet their contractual obligations. Prior to entering into a contract with the counterparty, we will conduct an evaluation on the credit standing of the counterparty to ensure they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If we view that the downgrade in the rating of the counterparty may lead to high credit risk, we will not hesitate to take pre-emptive measures to unwind these positions.

To manage non-compliance risks, we use information technology system that is able to monitor the trading of investment to ensure compliance with the Fund’s investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund’s limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the person(s) or members of a committee undertaking the oversight arrangement of the Fund to ensure that the Fund’s investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and guidelines violations. We will also closely monitor the performance of the underlying investments of the Fund and obtain regular updates from the respective managers of the Islamic CIS by looking at the Islamic CIS’ standard deviation, tracking error and measures of excess return. The data obtained will be reviewed on a quarterly basis, or as and when extreme market conditions or price movement in Islamic CIS occur.

Liquidity Risk Management

We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Fund in order to meet the repurchase requests from the Unit Holders with minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. Such policies take into account, amongst others, the asset class of the Fund and the redemption policy of the Fund. To manage the liquidity risk, we have put in place the following procedures:

- a) The Fund may hold a maximum of 15% of its NAV in Islamic money market instruments and/or Islamic deposits. This will allow the Fund to have sufficient buffer to meet the Unit Holders' repurchase request;
- b) Regular review by the designated fund manager on the Fund's investment portfolio including its liquidity profile;
- c) Daily monitoring of the Fund's net flows and periodic liquidity stress testing of the Fund's assets against repurchase requests during normal and adverse market conditions are performed as pre-emptive measures in tracking the Fund's liquidity status. This will ensure that we are prepared and able to take the necessary action proactively to address any liquidity concerns, which would mitigate the potential risks in meeting Unit Holders' repurchase requests; and
- d) Suspension of repurchase requests from the Unit Holders under exceptional circumstances* where the market value or fair value of a material portion of the Fund's assets cannot be determined. During the suspension period, the repurchase requests from the Unit Holders will be accepted but will not be processed. Such repurchase requests will only be processed on the next Business Day once the suspension is lifted. That said, the action to suspend repurchase requests from the Unit Holders shall be exercised only as a last resort by the Manager having considered the best interests of Unit Holders.

** The Manager will consider to suspend the dealing of the Fund should the Islamic CIS that make up material portion of the NAV of the Fund suspend the dealings** and the inability to repatriate the proceeds of the redemptions of the shares or units of the Islamic CIS arising from the regulatory restrictions and/or foreign exchange controls imposed by the authorities in respective jurisdictions.*

*** The Manager may consider suspending the Fund when multiple Islamic CIS (which make up material portion of the Fund's NAV) that the Fund invests in suspend the dealings under circumstances, amongst others, as follows:*

- (i) Should redemption applications by investors of the Islamic CIS exceeds 10% of the net asset value of the Islamic CIS on any dealing day, the management company of the Islamic CIS may in its absolute discretion defer such redemption applications; and*
- (ii) When substantial portion of the Islamic CIS' investments is suspended or restricted for trading that subsequently affects the valuation of the Islamic CIS.*

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated to the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

BENCHMARK

Absolute return of 8% per annum.

It is important to note that this is only a measurement of the Fund's performance and is not a guaranteed return.

We may provide you with the information on the benchmark upon your request.

ASSET ALLOCATION

- A minimum of 85% of the Fund's NAV will be invested in Islamic CIS; and
- A maximum of 15% of the Fund's NAV in Islamic money market instruments and/or Islamic deposits.

INVESTMENT STRATEGY

In line with its objective, the investment strategy of the Fund is to invest in a diversified portfolio of Islamic CIS that will provide capital growth through exposure into global markets.

To offer investment diversification, the selection of Islamic CIS will be made based on the geographical and asset class focus to broaden the investment reach. Through its investment into Islamic CIS, the Fund will provide you with access into Shariah-compliant equities listed in global markets, as well as access into Shariah-compliant fixed income instruments such as sukuk, Islamic money market instruments and Islamic deposits, issued globally. We will look towards growth portfolio by holding optimal exposure in Islamic CIS that invest into both Shariah-compliant equities and Shariah-compliant fixed income instruments respectively. Exposure into Shariah-compliant equities are generally considered to be able to provide higher returns as compared to Shariah-compliant fixed income instruments thus exposing you to relatively higher risk that comes with Shariah-compliant equity investments. However, the Fund will also have exposure in Shariah-compliant fixed income instruments, which are generally considered to be of lower risk, and the optimal allocation is aimed at managing the overall volatility of the Fund.

We may place the uninvested portion of the Fund in liquid assets such as Islamic money market instruments and/or Islamic deposits. However, we may also take temporary defensive positions that may be inconsistent with the Fund's principal strategy by holding up to all of the Fund's NAV in Islamic money market instruments and/or Islamic deposits in attempting to respond to adverse conditions that could negatively impact the financial markets.

Islamic Derivatives

The Fund may employ Islamic derivatives such as Islamic foreign currency forwards, Islamic cross currency swaps and other Islamic derivatives that are approved by the Shariah Adviser for hedging purposes. These instruments may be used to hedge the principal and/or the returns of the foreign-currency denominated investments back to the base currency of the Fund. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.

The Fund adopts commitment approach to measure the Fund's global exposure to Islamic derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of Islamic derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the Islamic derivatives position must not exceed 100% of NAV of the Fund at all times.

Cross Trades Policy

We may conduct cross trades between funds which we are currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of our employee and the Fund's account(s) and between our proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria would be monitored by our compliance unit, and reported to the compliance and risk management committee, to avoid conflicts of interests and manipulation that could have a negative impact on investors.

For the avoidance of doubt, only Islamic account is permitted for placement of liquid assets with institutions licensed under the Financial Services Act 2013. The Fund is also prohibited from investing in interest-bearing deposits and recognizing any interest income.

4. Islamic derivatives

Islamic derivatives that are endorsed by other Shariah advisers or committees must be approved by the Shariah Adviser upon review of the relevant documents e.g. principal terms and conditions and Shariah pronouncements or approvals.

5. Any other Shariah-compliant investments

For avoidance of doubt, the documents relating to the Shariah-compliant liquidity management instrument should be submitted for prior approval by the Shariah Adviser. Where the Shariah Adviser request a change to the Shariah investment guidelines, it shall give the Manager a reasonable period of time to effect such change in the Prospectus in accordance with the requirements of any applicable law and regulation.

B. Cleansing Process for the Fund

Shariah non-compliant investment

This refers to Shariah non-compliant investment made by the Manager. The said investment will be disposed of or withdrawn with immediate effect or within a month of knowing the status of the investment. In the event of the investment resulted in gain (through capital gain and/or dividend and/or profit) received before or after the disposal of the investment, the gain is to be channeled to baitulmal and/or any other charitable bodies as advised by the Shariah Adviser. The Fund has the right to retain only the investment cost. If the disposal of the investment resulted in losses to the Fund(s), the losses are to be borne by the Manager.

C. Payment of Zakat

This refers to the purification by way of payment of zakat by Muslims. The Fund do not pay zakat on behalf of Muslim Unit Holders. Thus, Muslim Unit Holders are advised to pay zakat on their own.

The investment portfolio of the Fund will comprise instruments that have been classified as Shariah-compliant by the SAC of SC and, where applicable the SAC of BNM. For instruments that are not classified as Shariah-compliant by the SAC of SC and, where applicable the SAC of BNM, the status of the instruments has been determined in accordance with the ruling issued by the Shariah Adviser.

VALUATION OF PERMITTED INVESTMENTS

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

The valuation bases for the permitted investments of the Fund are as below:

➤ Listed Islamic CIS

Valuation of investments in listed Islamic CIS shall be based on closing price or last known transacted price on the eligible market on which the investment is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the Islamic CIS for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such listed Islamic CIS will be valued at fair value determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor and approved by the Trustee.

➤ Unlisted Islamic CIS

Unlisted Islamic CIS will be valued based on its last published repurchase price.

➤ **Islamic Money Market Instruments**

Valuation of MYR denominated Islamic money market instruments will be done using the price quoted by a bond pricing agency (“BPA”) registered with the SC. For non-MYR Islamic money market instruments, valuation will be done using an average of quotations by reputable Financial Institutions. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager. This may be determined by reference to the valuation of other Islamic money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

➤ **Islamic Deposits**

Valuation of Islamic deposits placed with Financial Institutions will be done by reference to the principal value of such investments and the profits accrued thereon for the relevant period.

➤ **Islamic Derivatives**

Valuation of Islamic derivatives will be based on the prices provided by the respective issuers. The issuers generate the market valuation through the use of their own proprietary valuation models, which incorporate all the relevant and available market data with respect to the Islamic derivatives (e.g. profit rates, movement of the underlying assets, volatility of the underlying assets, the correlation of the underlying assets and such other factors). For Islamic foreign exchange forward contracts (“Islamic FX Forwards”), interpolation formula is applied to compute the value of the FX Forwards based on the rates provided by Bloomberg or Refinitiv. If the rates are not available on Bloomberg or Refinitiv, the FX Forwards will be based on fair value as determined in good faith by the Manager, using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

VALUATION POINT OF THE FUND

The Fund will be valued at 6.00 p.m on every Business Day (or “trading day” or “T” day). However, if the Fund has exposure to investments outside of Malaysia, the Fund shall be valued at 11.00 a.m. on the next Business Day (or “T + 1”). All foreign assets are translated into the base currency of the Fund based on the last available bid exchange rate quoted by Bloomberg/Refinitiv at 4.00 p.m. (United Kingdom time) which is equivalent to 11 p.m. or 12 midnight (Malaysian time) on the same day, or at such time as stipulated in the investment management standards issued by the FiMM.

The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.

The Trustee may suspend the sale and/or repurchase of Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders' meeting to decide on the next course of action.

** The Manager will consider suspending the dealing of the Fund should the Islamic CIS that make up material portion of the NAV of the Fund invests in suspend the dealings** and the inability to repatriate the proceeds of the redemptions of the shares or units of the Islamic CIS arising from the regulatory restrictions and/or foreign exchange controls imposed by the authorities in respective jurisdictions. Suspension will only be exercised as a last resort as the Manager will utilise the Fund's liquid assets (i.e. Islamic money market instruments and/or Islamic deposits) in meeting the redemption request by Unit Holders.*

*** The Manager may consider suspending the Fund when multiple Islamic CIS (which make up material portion of the Fund's NAV) that the Fund invests in suspend the dealings under circumstances, amongst others, as follows:*

- (i) Should redemption applications by investors of the Islamic CIS exceeds 10% of the net asset value of the Islamic CIS on any dealing day, the management company of the Islamic CIS may in its absolute discretion defer such redemption applications; and*

Note : All Repurchase Charge will be rounded up to two (2) decimal places.

TRANSFER FEE

Nil.

SWITCHING FEE

FEES AND EXPENSES

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund.

ANNUAL MANAGEMENT FEE

The annual management fee is up to 1.80% per annum of the NAV of the Fund (before deducting the management fee and trustee fee). This fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 130 million for that day, the accrued management fee for that day would be:

$$\frac{\text{MYR } 130,000,000 \times 1.80\%}{365 \text{ days}} = \text{MYR } 6,410.96$$

ANNUAL TRUSTEE FEE

The trustee fee is up to 0.045% per annum of the NAV of the Fund (excluding foreign custodian fees and charges) (before deducting the management fee and trustee fee). The trustee fee is accrued daily and payable monthly. In addition to the annual trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 130 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{MYR } 130,000,000 \times 0.045\%}{365 \text{ days}} = \text{MYR } 160.27$$

ADMINISTRATIVE EXPENSES

Only the expenses which are directly related and necessary to the operation and administration of the Fund may be charged to the Fund. These would include (but are not limited to) the following:

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at a particular valuation point. The NAV per Unit is the NAV of the Fund divided by the number of Units in Circulation, at the same valuation point.

Please refer to the "Valuation Point of The Fund" section of this Prospectus for an explanation of the valuation point.

Illustration on computation of NAV and NAV per Unit for a particular day:-

Units in Circulation	300,000,000.00
	MYR
Investments	195,000,000.00
Add other assets	5,700,000.00
Gross asset value	200,700,000.00
Less: Liabilities	700,000.00
NAV (before deduction of management fee and trustee fee for the day)	200,000,000.00
Less: Management fee for the day	9,863.01
Less: Trustee fee for the day	246.57
NAV	199,989,890.42
NAV per Unit*	0.6666

* NAV per Unit is derived by dividing the NAV with the Units in Circulation.

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units	AIIMAN	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AIIMAN	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

Under a single pricing regime, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge is payable separately from the Selling Price and Repurchase Price.

Forward Pricing will be used to determine the Selling Price and the Repurchase Price i.e. the NAV per Unit as at the next valuation point after we receive the purchase request or repurchase request.

Calculation of Selling Price

For illustration purposes, let's assume the following:

Investment Amount	MYR 10,000.00
Selling Price per Unit	MYR 0.50
Number Of Units Received*	MYR 10,000 ÷ MYR 0.50 = 20,000 Units
Sales Charge	0.00%
Sales Charge Paid By Investor**	0.00% x MYR 0.50 x 20,000 Units = MYR 0
Total Amount Paid By Investor***	MYR 10,000 + MYR 0 = MYR 10,000

Formula for calculating:-

$$\begin{aligned}
 * \text{ Number of Units received} &= \frac{\text{Invested Amount}}{\text{Selling Price per Unit}} \\
 ** \text{ Sales Charge paid by investor} &= \text{Sales Charge} \times \text{Selling Price per Unit} \times \text{Number of Units received} \\
 *** \text{ Total amount paid by investor} &= \text{Invested Amount} + \text{Sales Charge paid by investor}
 \end{aligned}$$

Calculation of Repurchase Price

For illustration purposes, let's assume the following:-

Units Repurchased	20,000 Units
Repurchase Price per Unit	MYR 0.50
Repurchase Amount [^]	20,000 Units x MYR 0.50 = MYR 10,000
Repurchase Charge	3.00% of the NAV per Unit
Repurchase Charge Paid By Investor ^{^^}	3.00% x MYR 10,000 = MYR 300
Total Amount Received By Investor ^{^^^}	MYR 10,000 - MYR 300 = MYR 9,700

Formula for calculating:-

$$\begin{aligned}
 ^\wedge \text{ Repurchase amount} &= \text{Unit repurchased} \times \text{Repurchase Price per Unit} \\
 ^^ \text{ Repurchase Charge paid by investor} &= \text{Repurchase Charge} \times \text{Repurchase amount} \\
 ^^^ \text{ Total amount received by investor} &= \text{Repurchase amount} - \text{Repurchase Charge paid by investor}
 \end{aligned}$$

Liabilities Of Unit Holders

- You would not be liable for any amount in excess of the purchase price paid for the Units as determined in accordance with the Deed at the time the Units were purchased and any charges payable in relation thereto; and
- You shall not be under any obligation to indemnify the Manager and/or the Trustee in the event that the liabilities incurred by the Manager and/or the Trustee in the name of or on behalf of the Fund pursuant to and/or in the performance of the provisions of the Deed exceed the value of the assets of the Fund and any right of indemnity of the Manager and/or the Trustee shall be limited to recourse to the Fund.

The quorum required for a meeting of the Unit Holders shall be five (5) Unit Holders, whether present in person or by proxy; however, if the Fund has five (5) or less Unit Holders, the quorum required for a meeting of the Unit Holders shall be two (2) Unit Holders, whether present in person or by proxy; if the meeting has been convened for the purpose of voting on a Special Resolution, the Unit Holders present in person or by proxy must hold in aggregate at least twenty five per centum (25%) of the Units in Circulation at the time of the meeting.

If the Fund has only one (1) remaining Unit Holder, such Unit Holder, whether present in person or by proxy, shall constitute the quorum required for the meeting of the Unit Holders.

Unit Holders' Meeting Convened By Unit Holders

TAXATION OF THE FUND OFFERED UNDER AIIMAN SMART INVEST PORTFOLIO - GROWTH AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Replacement Prospectus ("hereinafter referred to as "the Prospectus") in connection with the offer of Units in Aiiman Smart Invest Portfolio - Growth ("the Fund").

The taxation of income for both the Fund and the Unit holders are subject to the provisions of the Malaysian Income Tax Act 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUND

The Fund will be regarded as resident for Malaysian tax purposes since the Trustee of the Fund is resident in Malaysia.

(1) Domestic Investments

(i) General Taxation

Subject to certain exemptions, the income of the Fund consisting of dividends or interest or profit¹ (other than interest or profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24%.

Gains on disposal of investments in Malaysia by the Fund will not be subject to Malaysian income tax.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence, dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refund available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

¹ Under section 2(7) of the Income Tax Act 1967, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Syariah.

The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Syariah, will be accorded the same tax treatment as if they were interest.

The Fund may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund will not be taxable on such exempt income.

Interest or profit¹ or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debenture² other than convertible loan stocks, approved or authorised by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest or profit¹ derived from the following investments is exempt from tax:

- (a) Interest or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013;
- (b) Interest or profit¹ paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest or profit¹ paid or credited by Malaysia Building Society Berhad³.

The interest or profit¹ or discount income exempted from tax at the Fund's level will also be exempted from tax upon distribution to the Unit holders.

Exception: -

i. Wholesale money market fund

With effect from 1 January 2019, the exemption shall not apply to interest or profit¹ paid or credited to a unit trust that is a wholesale money market fund.

ii. Retail money market fund ("RMMF")

Based on the Finance Act 2021, the interest income or profit¹ of a RMMF will remain tax exempted under Paragraph 35A, Schedule 6 of the Act.

However, resident and non-resident unit holders (other than individual unit holders), who receive income distributed from interest or profit¹ income of the RMMF which are exempted under Paragraph 35A of Schedule 6, will be subject to withholding tax ("WHT") at the rate of 24%. This new WHT will be effective from 1 January 2022 onwards.

The WHT is to be withheld and remitted by the RMMF to the IRB within 30 days upon distribution of the income to the unit holders.

(2) Foreign Investments

With effect from 1 January 2022, the exemption of foreign sourced income received in Malaysia is only applicable to a person who is non-resident.

On 30 December 2021, the Ministry of Finance announced that the following foreign-sourced income received by Malaysian residents from 1 January 2022 to 31 December 2026 (5 years) will continue to be exempted from Malaysian income tax:

- Dividend income received by resident companies and limited liability partnerships.
- All classes of income received by resident individuals (except for resident individuals which carry on business through a partnership).

² Structured products approved by the Securities Commission Malaysia are deemed to be "debenture" under the Capital Markets and Services Act, 2007 and fall within the scope of exemption.

³ Exemption granted through letters from Ministry of Finance Malaysia dated 11 June 2015 and 16 June 2015 and it is with effect year of assessment ("YA") 2015.

Based on clarifications from the IRB, foreign-sourced income (e.g. dividends, interest, etc.) of a resident Fund which is received in Malaysia will be subject to tax.

There will be a transitional period from 1 January 2022 to 30 June 2022 where foreign-sourced income remitted to Malaysia will be taxed at the rate of 3% on gross income. From 1 July 2022 onwards, any foreign-sourced income remitted to Malaysia will be subject to Malaysian income tax at the rate of 24% for a resident Fund.

Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. Subject to meeting the relevant prescribed requirements, the Fund in Malaysia is entitled for double taxation relief on any foreign tax suffered on the income in respect of overseas investment.

The foreign income subjected to Malaysian tax at the Fund level will also be taxable upon distribution to the Unit holders. However, the income distribution from the Fund will carry a tax credit in respect of the Malaysian tax paid by the Fund. Unit holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them.

Gains on disposal of foreign investments by the Fund will not be subject to Malaysian income tax.

(3) Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

(4) Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers' remuneration, expenses on maintenance of the register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10% and a maximum of 25% of the expenses.

(5) Real Property Gains Tax ("RPGT")

With effect from 1 January 2019, any gains on disposal of real properties or shares in real property companies⁴ ("chargeable asset") would be subject to RPGT as follows:-

Disposal time frame	RPGT rates (Companies incorporated in Malaysia and Trustee of a trust)
Within 3 years	30%

(6) Sales and Service Tax ("SST")

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax. The rates for sales tax are nil, 5%, 10% or a specific rate whereas the rate for service tax is at 6%.

⁴ A real property company is a controlled company which owns or acquires real property or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable cost to the business.

In general, the Fund, being a collective investment vehicle, will not be caught under the service tax regime.

Certain brokerage, professional, consultancy or management services obtained by the Fund may be subject to service tax at 6%. However, fund management services and trust services are excluded from service tax.

With effect from 1 January 2019, service tax will apply to any taxable service that is acquired by any business in Malaysia from a non-Malaysian service provider. In this connection, the Fund, being non-taxable person who acquire imported taxable services (if any) will need to declare its imported taxable services through the submission of prescribed declaration, i.e. Form SST-02A to the Royal Malaysian Customs Department ("RMCD").

With effect from 1 January 2020, service tax on digital services was implemented at the rate of 6%. Under the service tax on digital services, foreign service providers selling digital services to Malaysian consumers are required to register for and charge service tax. Digital services are defined as services which are delivered or subscribed over the internet or other electronic network, cannot be delivered without the use of IT and the delivery of the service is substantially automated.

Furthermore, the provision of digital services has also been prescribed as a taxable service when provided by a local service provider with effect from 1 January 2020. Hence, where the Fund obtains any of the prescribed digital services, those services may be subject to service tax at 6%.

TAXATION OF UNIT HOLDERS

Unit holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent of the distributions received from the Fund. The income distribution from the Fund will carry a tax credit in respect of the Malaysian tax paid by the Fund. Unit holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them.

Corporate Unit holders, resident⁵ and non-resident, will generally be liable to income tax at 24%⁶ on distribution of income received from the Fund. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit holders.

Individuals and other non-corporate Unit holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1%⁷ to 30%⁸. Individuals and other non-corporate Unit holders who are not resident in Malaysia will be subject to income tax at 30%. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit holders.

⁵ Resident companies with paid up capital in respect of ordinary shares of RM2.5 million and below and having an annual sales of not more than RM50 million will pay tax at 17% for the first RM600,000 of chargeable income with the balance taxed at 24% with effect from YA 2020.

In addition, the above shall not apply if more than –

- (a) 50% of the paid up capital in respect of ordinary shares of the company is directly or indirectly owned by a related company;
- (b) 50% of the paid up capital in respect of ordinary shares of the related company is directly or indirectly owned by the first mentioned company;
- (c) 50% of the paid up capital in respect of ordinary shares of the first mentioned company and the related company is directly or indirectly owned by another company.

"Related company" means a company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of the basis period for a YA.

⁶ Pursuant to Finance Act 2021, the income tax rate for a company (other than Micro, Small and Medium Enterprises) will be increased to 33% if a company has chargeable income exceeding RM100,000,000 in YA 2022.

⁷ Effective from YA 2021, the resident individuals tax rate was reduced by 1% (from 14% to 13%) for the chargeable income band RM50,001 to RM70,000.

⁸ Effective from YA 2020, the resident individuals tax rate was increased to 30% for the chargeable income exceeding RM2,000,000.

Non-resident Unit holders may also be subject to tax in their respective jurisdictions. Depending on the provisions of the relevant country's tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable against the relevant foreign tax.

The distribution of exempt income and gains arising from the disposal of investments by the Fund will be exempted from tax in the hands of the Unit holders.

Any gains realised by Unit holders (other than dealers in securities or companies habitually buying and selling investments, insurance companies or financial institutions) on the sale or redemption of the units are treated as capital gains and will not be subject to income tax. This tax treatment will include gains in the form of cash or residual distribution in the event of the winding up of the Fund.

Unit holders electing to receive their income distribution by way of investment in the form of new Units will be regarded as having purchased the new Units out of their income distribution after tax.

Unit splits issued by the Fund are not taxable in the hands of Unit holders.

Retail Money Market Fund ("RMMF")

Generally, no additional WHT will be imposed on the income distribution from the Fund unless the Fund is an RMMF, in which case there is a WHT of 24% with effect from 1 January 2022 on distribution from interest income of a RMMF which are exempted under Paragraph 35A of Schedule 6 and distributed to non-individual unitholders.

For resident corporate Unit holders, the WHT is not a final tax. The resident corporate Unit holders will need to subject the income distributed from interest or profit¹ income of a RMMF which are exempted under Paragraph 35A of Schedule 6 to tax in its income tax returns and the attached tax credit i.e. the 24% WHT suffered will be available for set-off against the tax chargeable on the resident corporate Unit holders.

For non-resident Corporate Unit holders, the 24% WHT is a final tax.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation.
